

Common Core Resources for Parents—How Can I Help My Child with the Common Core Learning Standards?

Tell your child that when they face tests or school work that seems difficult, it is important to keep trying. Reassure them that it is okay to struggle, and that you believe that they can rise to the challenge. Remind them that they should not be afraid to ask questions; they should ask their teachers and other adults questions regarding their schoolwork, tests, and the new standards. Remind them that by continuing to work hard and persist through difficulties, they will be prepared to be successful in school and life.

Resources to Help Families Support the Common Core Learning Standards:

Parent and Family Resources from Engage NY:
